## WINDOW COLLECTION

BY DECEUNINCK

### STYLE

The Heritage Window and Door Collection combines the elegance and styling of traditional timber windows with all the benefits of PVC. They are virtually maintenance free, keeping the warmth in and unwelcome visitors out.

The collection is ideal for period properties and for those who want to add or restore character to their homes. With unique, unrivalled, aesthetics and sympathetic symmetrical design, a Heritage window or door will give a property perfect balance and harmony.

### SECURITY

There's no compromise when it comes to security. The bespoke locking keep has a useful night vent locking position and also helps to achieve enhanced security accreditation PAS24, a British Standard all of our Heritage products have achieved. Furthermore, all Heritage windows and doors can carry the Secured By Design badge of approval. Secured By Design is the a national UK crime prevention initiative, which helps protect you and your property for complete peace of mind.

Our wide range of modern, contemporary and period style windows incorporate the latest built-in safety features, including internal glazing beads and multi point locking systems.

To provide enhanced resistance to forced entry our windows can be fitted with a hinge protector device between the frame and the sash opener. For doors the latest anti-bump, anti-snap, key locking cylinders can also be installed to further enhance performance.

# What makes our windows so unique?

### PERFORMANCE

To keep out the wind and rain we use our patented high performance, multifunctional weatherseals. The airtight seal this creates helps to maintain your comfort inside your home.

The Flush Sash dual seal is exceptionally watertight, with the added benefit of concealing any hardware. Any water that has found its way inside is quickly evacuated due to the intelligently designed integral drainage gutter.

### CONSERVATION

Our Heritage Flush and Sculptured Sash windows look great in any surrounding, from country cottages to modern townhouses. Their subtle charm and elegance will transform your home.

If you live in a Conservation Area, home improvements such as replacing your windows and doors will require planning consent as there are strict guidelines to ensure that architectural features are preserved.

We have designed the Heritage Window Collection with this in mind; replicating the appearance and style of traditional timber windows with features such as our authentic Wood Grain Finish, Monkey Tail Handles and Georgian Bar options. However, you should always obtain consent from a planning/conservation officer before proceeding with an installation.

F

### FLUSH SASH WINDOW

Designed to replicate the appearance of timber, Flush Sash windows are distinguished by sashes that close into the frame and finish flush with the face of the window. Flush Sash windows typically have frames that appear the same width, known as 'equal sightlines' this look is achieved using dummy sashes, something that undoubtedly improves the overall appearance of your property.

S

C

### SCULPTURED & CHAMFERED SASH WINDOW

Sculptured and Chamfered Sash windows feature outward opening sashes which stand proud of the face of the window frame and are the more typical style used in homes you see today. For that period property look, both Sculptured and Chamfered Sash windows can also feature a dummy sash. This simple but effective upgrade to achieve 'equal sightlines' can really enhance the beauty of your home. See Page 42.

## HERITAGE FLUSH SASH with GRAF weld

Flush sash windows, or flush casement windows, are a hybrid modern traditional double glazing window solution. They are distinguished by their classic lines that fit the flush perfectly into the window frame.

Heritage flush sash windows look great in any surrounding, whether they are being installed into a modern townhouse or country cottage. Blending seamlessly with the property aesthetic they have slim line sightlines and sit flush within the frames without any unsightly lumps or bumps.

Our flush sash windows will retain their elegance while still functioning as a high quality window for many years to come providing a cost-effective and worthwhile investment for any home.

### Sound Proof

Glazing options that we provide maximise energy efficiency as well as reducing noise pollution from entering your home. We offer a vast range of glass effects available which make a huge impact on the appearance of a property. You can opt for toughened or laminated glass for extra safety and security on your flush sash windows.

### Perfect for Conservation

Flush external contours are in keeping with period properties and meet the requirements of most conservation officers. You'd need to check with a local planning/conservation officer to confirm this before installation. The flush sash windows provide a brilliant solution for homeowners that are conscious about conservation.

### Safe and Secure

For total peace of mind, our Heritage flush sash windows come with multi-point locking as standard. Safety is an integral feature for all homeowners and we put it at the forefront of our window profile design to ensure a safe and secure property as well as a robust and resilient product.

# Our Heritage Collection Offers Luxury and Affordability

Selecting the right style of windows for a property is a salient decision when it comes to enhancing the looks of a property and adding extra security benefits. Our flush sash windows exude beauty and provide a stylish solution that adds energy efficiency and comfort to a home. Flush sash windows offer a toned down style as well as being an incredibly low maintenance option. Available in a number of colours and palettes to completely any property type, they are the ideal solution for a cost-effective home improvement option.

All of our windows use sustainable materials meaning that they can be fully recycled at the end of their life span making them an environmentally friendly option. Our double glazed flush sash windows substantially reduce heat loss so that homeowners can recoup the cost of the double-glazing in the money saved from heating bills over time.

## What is a GRAF weld?

### HERITAGE WINDOW COLLECTION

BY DECEUNINCK

A GRAF weld is state of the art welding technology used in the manufacture of PVCu windows and doors. A GRAF welder is large, very expensive and typically needed in addition to existing welding machines on a production line. So while GRAF welders have been around for some years they are still quite rare. The GRAF weld difference is the way it welds the frame together, rather than welding 'externally'. A GRAF welder welds the frame 'inwards' meaning that no excess plastic needs cleaning away and touching up with paint. This gives an almost invisible finish to the corners of the frame. The GRAF weld makes a huge difference to the finish of our Heritage flush PVCu windows and outward opening flush doors, it really needs to be seen to understand what a leap forward this is for PVCu window production (inward opening Heritage doors cannot be flush/GRAF welded). Our Heritage flush casement windows will also include a mechanically joined transom / mullion again for a neater finish. We are pleased to be able to offer these improvements at NO additional cost. We have a range of finishes on display at our showsite and encourage you to visit us before ordering.

### Heritage Flush GRAF Weld Finish

### Example Residence 7 with a Welded Finish

Heritage Flush Casement windows feature GRAF welding on all finishes: Wood-grain foil finish and smooth white

Mechanical joint (Transoms and mullions on our Heritage Flush profiles are mechanically joined for a neater finish)  
**2<sup>nd</sup> Generation GRAF weld**  
**No excess plastic to clean**  
**No touch up paint**  
**Almost invisible finish**  
**Matching welded sills for bay windows and conservatories**

Excess plastic from the weld is cleaned away leaving a raised profile which is unsightly and will catch the dirt

**Touch up paint is needed to finish the weld which will fade over time**

Example shown is a welded Residence 7 Flush design window from alternative installer

### Optional Teardrop and Monkey Tail Handles (Matching dummy peg stays are also available)

# Heritage Colour Collection

Our Heritage colour collection has been specially designed to help you put together the perfect colour palette for your home.

Every home is different, and our beautiful range of colours takes its inspiration direct from nature to harmonise perfectly with your home and its surroundings, ensuring it stays looking good for years to come.

Our unique range of woodgrain foil colours are available in a number of colourways.

Ask your installer for details.

If you're looking for a specific colour, please ask your installer to help you. There's practically hundreds of Renolit colour finishes you can choose from to suit your property and taste.

\* Heritage colour combinations shown below are available from stock in the Flush & Sculptured Sash only. Chamfered Sash is available on a short lead time.

## Premium Woodgrain Foils in 26 Colourways

- Beautiful authentic 'wood like' finish
- Extremely durable
- 10 year manufacturer's guarantee
- Each colour has its own matching ancillaries, trims and accessories
- Available from stock\*

Unique cranked design provides good clearance between the handle and the window

## Teardrop Handle

A unique, traditionally designed teardrop handle that fits perfectly with the Heritage window collection. The Teardrop handle grip has been ergonomically designed to fit perfectly in the palm of your hand. Due to its twist on the classic handle shape it is suitable for all our Heritage styles, most rooms and most interior schemes, you just need to choose the best colour option for you. As well as Antique Black, this hardware boasts Fab & Fix's unique and patented Hardex finish in chrome, graphite and gold.

## Traditional Peg Stays

Matching traditional peg stays are available to create a perfectly matching Heritage window. Available in Antique Black, Hardex Chrome, Hardex Graphite and Hardex Gold.

\* Only dummy peg stays can be fitted with the Flush Sash option

Matching monkey tail dummy stay also available to create a perfectly matching heritage window

## Monkey Tail Handle

Elegant design inspired by 19th century Ironmongery, our monkey tail handle gives a classic finish to our Heritage Window Collection. Manufactured from die-cast zinc with a specially formulated finish, it is suitable for all our Heritage styles, most rooms and most interior schemes, you just need to choose the best colour option for you. As well as Antique Black, this hardware boasts Fab & Fix's unique and patented Hardex finish in chrome, graphite and gold.

## Traditional Peg Stays

Matching traditional peg stays are perfectly suited to our Heritage windows. Available in Antique Black, Hardex Chrome, Hardex Graphite and Hardex Gold.

\* Only dummy peg stays can be fitted with the Flush Sash option

Patented cover caps with colour coordinated finish

Perfectly matching components, even down to the smallest details

## Slim line Window Handles

Classic design with a contemporary twist to create an elegant and stylish window, the connoisseur handle is a perfect match for all our Heritage Window Collection. Suitable for left or right-hand-opening windows, this key locking handle is available in many colour options to complement your windows and doors.

Choose from:

- White
- Gold
- Black
- Antique black
- Chrome
- Satin
- Graphite
- Bronze

## Designer Door Handles

For sliding doors, double opening or French doors, we have a range of handles with a classic design to perfectly complement the Heritage Window Collection.

Available in 7 colours; White, Black, Hardex Chrome, Hardex Gold, Hardex Graphite, Hardex Bronze and Antique Black.

## Heritage Glass Options

There are a wide range of glass effects from which you can choose to closely match the pattern you prefer. All our Heritage glass options are available toughened or laminated for your security and safety.

### Leaded and Georgian

The design of your Heritage windows and doors have a big impact on the overall appearance of your home.

Whatever the age of your property, the original windows and doors were designed to harmonise with it. So it's important to consider what will look right for the building when you replace them. The right design and look can preserve or enhance the value of your home.

Square Leaded

Unequal Sightlines

### Sightlines

Good window design extends to the symmetry of window sightlines. Equal sightlines add balance and harmony - creating the perfect stylish finish.

#### Deceuninck Registered Installers

The Heritage Window Collection is only available through our Registered Installers. They will be able to advise you on the choice of designs and accessories which will meet your requirements. Looking at colour samples will help you finalise your colour choice, and whether you are opting for a smooth or woodgrain finish. Also think about whether you would like the inside of your windows to be the same colour as the outside or whether to opt for white or oak inside to blend in with your internal decor.

#### On-site survey

Your Deceuninck Registered Installer will arrange a site survey at a mutually convenient time. This will allow for precise measurements to be taken as well as allowing you to confirm your choice of style and design to ensure that your bespoke windows are made to your satisfaction. Please take the time to ask any questions at this point and to make sure you are happy with the final design.

#### Processing your order

Your Deceuninck Registered Installer will keep in touch with you and let you know as soon as possible when your installation date will be. Between survey and installation\* you can sit back and relax whilst your bespoke windows are manufactured and quality tested to ensure they meet our rigorous standards.

\* You should always obtain consent from a planning/conservation officer before proceeding with an installation.

#### Taking care of your home

Our Registered Installers are all expert craftsmen who will take care of your home and treat it with respect at all times. Removing existing windows and doors and replacing them with your stunning new ones will inevitably cause a certain amount of disruption. Your installer will always make sure any mess is kept to a minimum and that the doors and windows are fitted with the utmost skill and care. Packaging and waste will be removed and recycled where possible, leaving you to relax and enjoy your new beautiful windows, safe in the knowledge they're protected with a 10 year guarantee.
