RESIDENCE 9 | GRAINED WHITE • GRAINED WHITE

My RESIDENCE

Case Study

This stunning country manor is tucked away in an idyllic rural setting in the beautiful British countryside.

To keep the charming character of their grand home, the homeowners opted for Residence 9 in Grained White timber effect foil finish for both internal and external. It's that classic painted timber look gives the ultimate kerbside appeal.

Mullion stiffener was used to create a traditional timber look - Old timber windows often had a raised moulding that ran horizontally or vertically, this bar looked distinctive and gave the windows depth and character. The bar's purpose was to shed dripping water and to increase the strength of the mullion, that is why we recreated this optional feature with Residence 9, time-served traditional performance and aesthetics

The colour choice and Georgian bar detailing perfectly complements the white traditional exterior to their home. The internal details of R9 blends flawlessly into the heritage feel of the inside décor, keeping the character.
